If we make a material change in the terms of the Offer or waive a material condition of the Offer, we will promptly give oral (to be confirmed in writing within one business day) or written notice of such amendment or such waiver to the Paying Agent and will disseminate additional offer documents and extend the Offer to the extent required by law. Any extension of the Offer will be followed promptly by public announcement thereof, the announcement to be issued no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled Expiration Time for the Offer. Without limiting the manner in which any public announcement may be made, we shall have no obligation to publish, advertise or otherwise communicate any such public announcement other than by issuing a press release to PR Newswire or a similar news service.

Proration

The Excess Cash Flow Offer Amount is less than the aggregate principal amount of Notes currently outstanding. If Notes in an aggregate principal amount in excess of the Excess Cash Flow Offer Amount are tendered and not withdrawn pursuant to the Offer, the Company will purchase Notes having an aggregate principal amount equal to the Excess Cash Flow Offer Amount on a pro rata basis (in the case of global notes, subject to the applicable procedures of DTC), with adjustments as may be deemed appropriate by the Trustee so that only Notes in denominations of \$2,000 or whole multiples of \$1,000 in excess thereof are purchased. The Trustee shall select the Notes in accordance with Section 3.02 of the Indenture.

No Appraisal or Similar Rights

Neither the Indenture nor applicable law gives the holders of Notes any appraisal or similar rights to request a court or other person to value their outstanding Notes in connection with the Offer.

CERTAIN CONSIDERATIONS

You should consider carefully the following considerations, in addition to the other information in this Offer to Purchase, before deciding whether to participate in the Offer.

Limited Trading Market

The Notes are not listed on any national or regional securities exchange. To the extent that Notes are traded, prices for the Notes may fluctuate greatly depending on the trading volume, the balance between buy and sell orders, prevailing interest rates, the Company's operating results and the market for similar securities. In addition, quotations for securities that are not widely traded, such as the Notes, may differ from actual trading prices and should be viewed as approximations. Notes that are tendered and accepted in the Offer will cease to be outstanding and will be cancelled. To the extent that Notes are tendered and accepted in the Offer, the trading market for such Notes will likely become more limited. A debt security with a smaller outstanding principal amount available for trading (a smaller "float") may command a lower price than would a comparable debt security with a greater float. Therefore, market prices for Notes that are not tendered or not purchased may be affected adversely to the extent that the principal amount of Notes purchased pursuant to the Offer reduces the float. The reduced float may also tend to make market prices more volatile.

Holders of Notes not tendered or not purchased may attempt to obtain quotations for their Notes from their brokers. However, there can be no assurance that any trading market will exist for the Notes following consummation of the Offer. The extent of the public market for the Notes following consummation of the Offer will depend upon, among other things, the remaining outstanding principal amount of such Notes, the number of beneficial owners remaining at such time, the interest in maintaining a market in such Notes on the part of securities firms and other factors. We cannot assure you that a market for the Notes that remain outstanding following consummation of the Offer will exist or be sustained.

Subsequent Acquisition of Notes

Whether or not the Offer is consummated, the Company or its affiliates may from time to time acquire, after the Expiration Time, Notes, other than pursuant to the Offer, through open market purchases, privately negotiated transactions, tender offers, exchange offers, by redemptions under the Indenture or otherwise, upon such terms and conditions and at such prices as the Company or such affiliates may determine, subject to requirements and limitations included in the Company's debt documents, which may be more or less than the prices to be paid pursuant to the Offer and could be for cash or other consideration.

Consideration

The consideration offered to purchase the Notes does not reflect any independent valuation of the Notes and does not take into account the events or changes in financial markets (including interest rates) after the commencement of the Offer. We have not obtained or requested a fairness opinion from any banking or other firm as to the fairness of the consideration offered for the Notes. If you tender your Notes, you may or may not receive more than, or as much value as, you would if you chose to keep them.

PURPOSE AND BACKGROUND OF THE OFFER

The purpose of the Offer is to satisfy our obligation under the Notes with respect to the Excess Cash Flow Offer for the Excess Cash Flow Period, as described in Section 3.10 and Section 4.20 of the Indenture.

Under the terms of the Indenture, the Company is obligated to offer to purchase for cash an aggregate principal amount of up to the Excess Cash Flow Offer Amount of its outstanding Notes at the Purchase Price no later than 60 days after the end of the applicable Excess Cash Flow Period, which for the purposes of this Offer, is the quarterly period ended March 31, 2023. For a detailed calculation of the Excess Cash Flow Offer Amount, please see Schedule A.

We are not making any recommendation to the holders as to whether to tender or refrain from tendering all or any portion of their Notes. You must decide whether to tender Notes, and if tendering, the amount of Notes to tender. You are urged to review carefully all of the information contained in this Offer to Purchase before making a decision as to whether to tender Notes.

PROCEDURES FOR TENDERING NOTES

In order to participate in the Offer, you must validly tender your Notes to the Paying Agent no later than the Expiration Time and according to the procedures described below. It is your responsibility to validly tender your Notes. We have the right to waive any defects. However, we are not required to waive defects and are not required to notify you of defects in your tender.

If you have any questions or need help in tendering your Notes, please contact the Paying Agent, whose contact information is listed on the last page of this Offer to Purchase. Any questions or inquiries regarding the terms and conditions of this Offer may be directed to the Company, whose contact information is listed on the last page of this Offer to Purchase.

All of the Notes were issued in book-entry form, and all of the Notes are currently represented by one or more global certificates held for the account of DTC. We have confirmed with DTC that the Notes may be tendered using the ATOP procedures instituted by DTC. Tenders of Notes are effected through the ATOP procedures by delivery of an agent's message by DTC to the Paying Agent. DTC participants may electronically transmit their acceptance of the Offer by causing DTC to transfer their outstanding Notes to the Paying Agent using the ATOP procedures. In connection with the transfer, DTC will send an "agent's message" to the Paying Agent. The agent's message must be sent to the Paying Agent by June 14, 2023 and will state that DTC has received instructions from the participant to tender Notes. Delivery through DTC and any acceptance of an agent's message transmitted through ATOP is at the risk of the holder tendering the Notes; delivery will be deemed made only when actually received by the Paying Agent. There are no letters of transmittal prepared for use in connection with the Offer. No documents should be sent to the Company or the Paying Agent.

The confirmation of a book-entry transfer into the Paying Agent's account at DTC as described above is referred to herein as a "Book-Entry Confirmation."

The term "agent's message" means a message transmitted by DTC to, and received by, the Paying Agent and forming a part of the Book-Entry Confirmation, stating that DTC has received an express acknowledgement from the participant in DTC tendering Notes that such participant has received and agrees to be bound by the terms of the Offer, including the representations set forth above, and the Company may enforce such agreement against the participant.

If you hold your Notes through Clearstream Banking, société anonyme ("Clearstream") or Euroclear Bank SA/NV, as operator of the Euroclear System ("Euroclear"), you must also comply with the applicable procedures of Clearstream or Euroclear, as applicable, in connection with a tender of Notes. Both Clearstream and Euroclear are indirect participants in the DTC system.

When tendering your Notes, you must allow sufficient time for completion of the ATOP procedures.

We will not be required to pay for Notes tendered pursuant to the Offer unless those Notes are validly tendered and accepted by us for purchase. Similarly, we will be able to retain Notes that have been tendered if you do not validly comply with the procedures to withdraw the Notes. We will have the right to decide whether a tender, withdrawal or revocation was made validly and our decision will be final. You should note the following with respect to the Offer:

- If we determine you have not validly tendered your Notes, or have not validly complied with the procedures to withdraw Notes previously tendered, you will have to correct the problem in the time period we determine.
- Neither we, the Trustee or the Paying Agent is under any obligation to advise you of any defect in your tender, withdrawal or revocation.
- We have the right, in our sole discretion, to waive any defect in the tender or withdrawal of Notes, and we may waive a defect with respect to one holder and not another.

If we determine you have not validly tendered your Notes and we determine not to waive such defective tender, they will be promptly returned to you at our expense following the Offer via a credit to the appropriate DTC account.

There are no guaranteed delivery provisions applicable to the Offer. Holders wishing to participate in the Offer must tender their Notes in accordance with the procedures set forth in this section prior to the Expiration Time.

ACCEPTANCE OF OUTSTANDING NOTES FOR PURCHASE; PAYMENT FOR NOTES

We will accept for purchase, after the Expiration Time, all Notes validly tendered pursuant to the Offer (or defectively tendered if we waive such defect), and not validly withdrawn prior to the Withdrawal Deadline, at such time. We will accept the Notes for purchase by notifying the Paying Agent of our acceptance. The notice may be oral if we promptly confirm it in writing within one business day.

Any principal amount of Notes tendered but not purchased pursuant to the Offer will be returned to the tendering holders at our expense through the facilities of DTC promptly following the earlier of the Expiration Time or the date on which the Offer is terminated. If any tendered Notes are not accepted for payment for any reason pursuant to the terms and conditions of the Offer, such Notes will be credited to an account maintained at DTC, designated by the participant therein who so delivered such Notes, promptly following the Expiration Time or the termination of the Offer.

We will pay for Notes that we have accepted for purchase by wiring to DTC cash equal to the Purchase Price owed to the holders plus interest accrued (but not yet paid) on the Notes to, but not including, the Settlement Date. It is the responsibility of DTC and its participants to deliver the Purchase Price and accrued interest to the persons beneficially entitled to them.

Upon the terms of the Offer, we intend to accept for purchase promptly following the Expiration Time Notes validly tendered, up to the Excess Cash Flow Offer Amount, and not validly withdrawn prior to the Withdrawal Deadline, prior to the Expiration Time. Subject to applicable securities laws, if, for any reason whatsoever, acceptance for purchase of, or the purchase of, any Notes tendered pursuant to the Offer is delayed (whether before or after our acceptance for purchase of Notes) or we extend the Offer or are unable to accept for purchase, or purchase, the Notes tendered pursuant to the Offer, we may instruct the Paying Agent to retain tendered Notes and those Notes may not be validly withdrawn, except to the extent that you are entitled to the withdrawal rights set forth herein. However, if the conditions to the consummation of the Offer are not satisfied, we have the right to retain the Notes without accepting them or without paying for them until the conditions are satisfied. If we cause the Paying Agent to hold such Notes, we must comply with Rule 14e-1 under the Exchange Act, which requires us to pay for the tendered Notes or return the Notes promptly after termination or withdrawal of the Offer.

For purposes of the Offer, you understand that we will be deemed to have accepted for purchase validly tendered Notes (or defectively tendered Notes with respect to which we have waived such defect), if, as and when we give oral (confirmed in writing within one business day) or written notice thereof to the Paying Agent.

We reserve the right to transfer or assign, in whole at any time or in part from time to time, to one or more of our affiliates, the right to purchase any Notes tendered pursuant to the Offer, but any such transfer or assignment will not relieve the Company of its obligations under the Offer and will in no way prejudice the rights of tendering holders to receive payment for Notes validly tendered and not validly withdrawn and accepted for payment pursuant to the Offer.

Holders of the Notes tendered and accepted for payment pursuant to the Offer will be entitled to accrued and unpaid interest to, but not including, the Settlement Date. Under no circumstances will any additional interest be payable because of any delay in the transmission of funds to the holders of purchased Notes or otherwise.

Tendering holders of Notes purchased in the Offer will not be obligated to pay brokerage commissions or fees to the Paying Agent or the Company or to pay transfer taxes with respect to the purchase of their Notes. However, holders should check with their brokers or custodians to ascertain if they assess fees. In addition, if the Purchase Price is to be paid to, or if Notes not tendered or not accepted for purchase are to be registered in the name of, any person other than a holder, the amount of any transfer taxes (whether imposed on the holder or such other person) payable on account of the transfer to such person will be deducted from the Purchase Price, unless satisfactory evidence of the payment of such taxes or exemption therefrom is submitted. The Company will pay all other charges and expenses in connection with the Offer. Notwithstanding anything herein to the contrary, the payment for Notes will be made net of any withholding that is required to be imposed pursuant to applicable law. See "Certain U.S. Federal Income Tax Considerations."

WITHDRAWAL OF TENDERS

You may withdraw Notes that you have tendered for purchase at any time before the Withdrawal Deadline but not thereafter, except in certain limited circumstances where additional withdrawal rights are required by law. In order to withdraw outstanding Notes you have presented for purchase, you must properly submit to the Paying Agent a notice of withdrawal, using the ATOP procedures, prior to the Withdrawal Deadline, assuming no additional withdrawal rights are so required.

For a withdrawal of a tender of Notes to be effective, a notice of withdrawal in the form of a “Request Message” transmitted through ATOP must be received by the Paying Agent prior to the Withdrawal Deadline. Any such notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn Notes and otherwise comply with the ATOP procedures. Any Notes validly withdrawn will be deemed to be not validly tendered for purposes of the Offer.

All questions as to the validity, form and eligibility (including time of receipt) of notices of withdrawal and revocation of tenders will be determined by us, in our sole discretion (which determination shall be final and binding). None of us, the Paying Agent or any other person will be under any duty whatsoever to give notification of any defects or irregularities in any notice of withdrawal or revocation of tenders, or incur any liability for failure to give any such notification.

If you withdraw Notes, you will have the right to retender them prior to the Expiration Time in accordance with the procedures described above for tendering outstanding Notes.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of certain U.S. federal income tax considerations related to the Offer that may be relevant to beneficial owners of the Notes (“Holders”). This summary is based on the Internal Revenue Code of 1986, as amended (the “Code”), Treasury Regulations promulgated thereunder, administrative rulings and pronouncements and judicial decisions, all as in effect on the date of this Offer to Purchase and all of which are subject to differing interpretations and/or change at any time (possibly with retroactive effect). The Company has not sought and will not seek a ruling from the Internal Revenue Service (the “IRS”) or an opinion of counsel regarding the matters described below. No assurance can be given that the IRS will agree with the tax considerations described in this summary, or that a court will not sustain any challenge by the IRS. Holders should seek advice based on their particular circumstances from an independent tax advisor.

This summary assumes that the Notes are held as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). This summary is not a complete description of all the U.S. federal income tax consequences of the Offer and, in particular, may not address U.S. federal income tax considerations (such as the effects of Section 451(b) of the Code conforming the timing of certain income accruals to financial statements) applicable to persons subject to special treatment under U.S. federal income tax law (including, for example, banks or other financial institutions, dealers in securities or currencies, traders that mark to market, U.S. expatriates, persons who hold their Notes as part of a hedge, straddle, or conversion transaction, insurance companies, regulated investment companies, real estate investment trusts, entities or arrangements treated as partnerships (or other pass-through entities) for U.S. federal income tax purposes (or investors therein), “controlled foreign corporations” or “passive foreign investment companies” each within the meaning of the Code, U.S. Holders (as defined below) whose “functional currency” is not the U.S. dollar, persons subject to the alternative minimum tax, U.S. Holders that hold Notes through non-U.S. brokers or other non-U.S. intermediaries, or tax-exempt entities). In addition, this summary does not discuss any aspect of state, local or non-U.S. tax law that may be applicable to any Holder of Notes, or any U.S. federal tax considerations other than U.S. federal income tax considerations (such as estate or gift tax considerations).

If a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes holds Notes, the U.S. federal income tax treatment of the partnership and each partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. Entities or arrangements treated as partnerships holding Notes (and partners in such partnerships) are urged to consult their own tax advisors about the U.S. federal income tax considerations relating to the Offer.

As used herein, a “U.S. Holder” is a beneficial owner of a Note that is for U.S. federal income tax purposes:

- an individual who is a U.S. citizen or U.S. resident alien;
- a corporation that is organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate whose income is subject to U.S. federal income taxation regardless of its source; or
- a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust, or that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

As used herein, a “Non-U.S. Holder” is any beneficial owner of a Note that is, for U.S. federal income tax purposes, an individual, corporation, estate or trust that is not a U.S. Holder.

Considerations for Tendering U.S. Holders

Sale of Notes Pursuant to the Offer

The receipt of cash for Notes pursuant to the Offer will be a taxable transaction for U.S. federal income tax purposes. A U.S. Holder who receives cash for a Note pursuant to the Offer will recognize gain or loss, if any, for U.S. federal income tax purposes equal to the difference between the amount of such cash (less any amounts attributable to accrued interest, which will be taxable as ordinary income to the extent such interest has not previously been included in income), and such U.S. Holder's adjusted tax basis in such Note. A U.S. Holder's adjusted tax basis in a Note is generally equal to the price such U.S. Holder paid for the Note, increased by any market discount previously included in income by such U.S. Holder (pursuant to an election to include market discount in income as it accrues) with respect to the Note and reduced by any amortizable bond premium previously amortized by such U.S. Holder with respect to such Note. U.S. Holders should consult their own tax advisors with respect to the determination of their tax basis in a Note.

Except as provided below with respect to market discount, any gain or loss recognized on a tender of a Note generally will be capital gain or loss. Such gain or loss will be long-term capital gain or loss provided that the U.S. Holder has held the Note for more than one year at the time of the consummation of the Offer. In the case of a Note that has been held for one year or less, such gain or loss will be short-term capital gain or loss. Short-term capital gains are generally subject to tax at the marginal rates applicable to ordinary income. The deductibility of capital losses may be subject to limitation.

Any gain recognized by a U.S. Holder that tenders its Notes will be treated as ordinary income to the extent of any market discount on the Notes that has accrued during the period that the tendering U.S. Holder held the Notes and that has not previously been included in income by the U.S. Holder (pursuant to an election to include market discount in income as it accrues). Generally, a Note will be considered to have been acquired with market discount if its initial tax basis in the hands of a U.S. Holder was less than the stated principal amount of the Note by more than a specified de minimis amount. Market discount accrues on a ratable basis, unless the U.S. Holder elects to accrue the market discount using a constant-yield method. The U.S. federal income tax rules regarding market discount are complex. U.S. Holders should consult their own tax advisors as to the portion of any gain that could be taxable as ordinary income under the market discount rules.

Medicare Tax

Certain U.S. Holders that are individuals, trusts, or estates are required to pay a 3.8% surtax (the "Medicare tax") on the lesser of (1) the U.S. Holder's "net investment income" for the taxable year (or "undistributed net investment income" in the case of an estate or trust), including interest and net gain from the sale of certain debt instruments, which is not derived in the ordinary course of business, and (2) the excess of the U.S. Holder's modified adjusted gross income for the taxable year (or adjusted gross income, in the case of an estate or trust) over an applicable threshold. U.S. Holders should consult their own tax advisors regarding the effect, if any, of the Medicare tax based on their particular circumstances.

Considerations for Tendering Non-U.S. Holders

Subject to the discussions below of amounts attributable to accrued interest, backup withholding and FATCA (as defined below), any gain recognized by a Non-U.S. Holder on the sale of a Note generally will not be subject to U.S. federal income or withholding tax, unless:

- such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business within the United States, in which case the Non-U.S. Holder would be taxed on the gain in the manner described below; or
- the Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are satisfied, in which case the Non-U.S. Holder would be subject to a flat 30% U.S. federal tax (or lower applicable treaty rate) on the gain, which may be offset by certain U.S.-source capital losses.

Subject to the discussion of backup withholding and FATCA below, amounts received pursuant to the Offer that are attributable to accrued interest on a Note by a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax, provided that:

- the Non-U.S. Holder certifies its foreign status by providing to the applicable withholding agent a properly executed IRS Form W-8BEN or Form W-8BEN-E, as applicable;
- the Non-U.S. Holder is not a “10-percent shareholder” of the Company within the meaning of Section 871(h)(3)(B) of the Code and the Treasury regulations thereunder;
- the Non-U.S. Holder is not a bank whose receipt of interest on the Notes is described in Section 881(c)(3)(A) of the Code;
- the Non-U.S. Holder is not a controlled foreign corporation that is related to us (within the meaning of Section 864(d)(4) of the Code); and
- such interest is not effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States.

If a Non-U.S. Holder cannot satisfy the requirements described above, amounts received pursuant to the Offer that are attributable to accrued interest generally will be subject to a 30% U.S. federal withholding tax, unless the Non-U.S. Holder provides to the applicable withholding agent a properly executed (i) IRS Form W-8BEN or Form W-8BEN-E, as applicable, claiming an exemption from or reduction in withholding under the benefit of an applicable income tax treaty or (ii) IRS Form W-8ECI stating that such accrued interest is not subject to withholding tax because it is effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States.

Any gain or amounts attributable to accrued interest on the Notes that are effectively connected with the conduct by a Non-U.S. Holder of a trade or business within the United States generally will be subject to U.S. federal income tax on a net income basis in the same manner as if the Non-U.S. Holder were a U.S. Holder, unless an applicable income tax treaty provides otherwise. Corporate Non-U.S. Holders may also be subject to branch profits tax at a rate of 30% (or a lower applicable treaty rate) on such Non-U.S. Holder’s effectively connected earnings and profits, subject to adjustments, attributable to such gain or interest.

Non-U.S. Holders should consult their own tax advisors regarding the availability of a refund of any U.S. federal withholding tax, any applicable income tax treaties which may provide for an exemption from or reduction of U.S. federal withholding tax or branch profits tax, or other rules different from those described above.

Considerations for Non-Tendering Holders

A Holder that does not tender its Notes in the Offer or does not have its Notes accepted for purchase will not recognize any gain or loss as a result of the Offer, and such Holder will continue to have the same tax basis, holding period, and other attributes with respect to the Notes as it had before the Offer.

Information Reporting and Backup Withholding

U.S. Holders

Information reporting requirements generally will apply and U.S. federal backup withholding may apply to payments received with respect to Notes tendered in the Offer. In order to avoid backup withholding, U.S. federal income tax law requires that each tendering U.S. Holder must provide the applicable withholding agent with an IRS Form W-9 that includes such U.S. Holder’s correct taxpayer identification number (“TIN”) which, in the case of an individual is his or her social security number or individual taxpayer identification number, and certain other information, or otherwise establish a basis for exemption from backup withholding. Exempt U.S. Holders (including, among others, corporations) are not subject to these backup withholding and information reporting requirements.

If the applicable withholding agent is not provided with the correct TIN or an adequate basis for exemption, a tendering U.S. Holder will be subject to backup withholding (currently at a rate of 24%) on payments received by such U.S. Holder with respect to Notes tendered in the Offer.

Non-U.S. Holders

Information returns may be filed with the IRS in connection with payments made to a Non-U.S. Holder pursuant to the Offer. Copies of these information returns may also be made available under the provisions of a specific treaty or other agreement to tax authorities of the country in which a Non-U.S. Holder resides. Each tendering Non-U.S. Holder must provide the applicable withholding agent with an appropriate, properly completed IRS Form W-8 (or applicable successor form), certifying such Non-U.S. Holder's foreign status in order to establish an exemption from backup withholding.

Backup withholding is not an additional U.S. federal income tax. Rather, the U.S. federal income tax liability of persons subject to backup withholding will be offset by the amount withheld. If backup withholding results in an overpayment of U.S. federal income tax, a refund or credit may be obtained from the IRS, provided the required information is timely furnished.

FATCA

Pursuant to the Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act, generally referred to as "FATCA," foreign financial institutions (which term includes most foreign banks, hedge funds, private equity funds, mutual funds, securitization vehicles and other investment vehicles) and certain other foreign entities generally must comply with certain information reporting rules with respect to their U.S. account holders and investors or confront a withholding tax on U.S.-source payments made to them (whether received as a beneficial owner or as an intermediary for another party). A foreign financial institution or such other foreign entity that does not comply with the FATCA reporting requirements generally will be subject to a 30% withholding tax with respect to any "withholdable payments." For this purpose, withholdable payments generally include U.S.-source interest and gross proceeds from dispositions of Notes, even if the payment would otherwise not be subject to U.S. nonresident withholding tax (*e.g.*, because it is capital gain). The IRS has issued proposed Treasury regulations that would eliminate the application of this regime with respect to payments of gross proceeds (but not interest). Pursuant to these proposed Treasury regulations, the issuer and any withholding agent may (but are not required to) rely on this proposed change to FATCA withholding until final Treasury regulations are issued or until such proposed regulations are rescinded. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

We will not pay any additional amounts to Holders in respect of any amounts withheld, including pursuant to FATCA. Under certain circumstances, a Holder might be eligible for refunds or credits of such taxes. Holders are urged to consult with their own tax advisors regarding the effect, if any, of the FATCA provisions to them based on their particular circumstances.

THE FOREGOING DISCUSSION IS NOT INTENDED TO BE A COMPLETE ANALYSIS OR DESCRIPTION OF ALL POTENTIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS AND OTHER TAX CONSIDERATIONS OF THE SALE OF NOTES PURSUANT TO THE OFFER. THUS, HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE SPECIFIC TAX CONSEQUENCES OF THE OFFER TO THEM, INCLUDING TAX RETURN REPORTING REQUIREMENTS, THE APPLICABILITY AND THE EFFECT OF U.S. FEDERAL, STATE, LOCAL, NON-U.S. AND OTHER APPLICABLE TAX LAWS, TAX TREATIES AND THE EFFECT OF ANY CHANGES IN THE TAX LAWS.

PAYING AGENT

TMI Trust Company, as Paying Agent under the Indenture, has been appointed as Paying Agent for the Offer.
